## PROGRAMME

The first edition of Video Art and Experimental Film Event (VAEFE) is a fact. This three-day open-air film event for video art and experimental films brings a fascinating selection of short films to Tilburg that highlights the theme 'Commons and Commoning'. On three consecutive evenings, we will show short inspiring, entertaining and critical video works and films by emerging and renowned international artists and filmmakers. Every day there are 6 to 9 films in a block of 1 hour. Each block is repeated four times a day. You can therefore join the program at any time.
